

Safety: Charging the SCE Electric Cars

When charging one of the SCE electric cars here at Roberson Place, please be careful to adequately protect pedestrians from tripping and falling.

1. Always use the rug that is stored in each car.
2. Pull the cord straight across the sidewalk. Do not let it coil.
3. Place the rug over the straightened electric cord.
4. Place the safety cone over the rug and cord.

Figure 1: Do not leave cord coiled and uncovered.

Figure 2: Straighten cord and cover with rug.

Figure 3: Place cone over rug and cord.

Figure 4: Proper covering of cord.
